DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of group I, claims 1-18 in Paper No. 4 is acknowledged. The traversal is on the ground(s) that serious burden is lacking. This is not found persuasive because the search for group I does not require a search for an MRAM, and because the search for group II does not require a search for a media-opposed surface.

The requirement is still deemed proper and is therefore made FINAL.

2. Group II (claim 19) has been withdrawn from consideration as drawn to a non-elected invention. Upon further consideration, the requirement below for election of species is deemed proper for group I (claims 1-18) and the newly submitted linking claim (claim 20).

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A: drawn to Fig. 3;

Species B: drawn to Fig. 4;

Species C: drawn to Fig. 5;

Species D: drawn to Fig. 6;

Species E: drawn to Fig. 7;

Species F: drawn to Figs. 10-11; and

Species G: drawn to Fig. 14.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 18 and 20 are generic.

Art Unit: 2652

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. A telephone call was made to Paul J. Skwierawski (Reg. No. 32173) on April 28, 2003, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 2652

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Julie Anne Watko whose telephone number is (703) 305-7742. The examiner can normally be reached on Mon-Thurs 7:30-5 and alternate Fri 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoa T. Nguyen can be reached on (703) 305-9687.
